

Action Planning

Having an annual Action Plan is a mandate of Act 60. Action planning is designed to enhance continuous school improvement. It allows for a mapping out of tasks that will result in improved student performance. Action plans developed at the school building level are believed to have the greatest impact on student achievement when those closest to the implementation of strategies, teachers, are members of the action planning team.

Analysis of other factors relating to children's performance led this year's Action Planning Committee to develop goals in the areas of writing, reading and safe and healthy living.

The plan is written by the Action Planning Committee, which is comprised of teachers, principal, community members and school board members. Below was the committee for 2008-09:

<u>Staff</u>	<u>Community Members:</u>	<u>School Board:</u>
Judy Gould	Beth Cutts	Jessie Bishop
Joyce Berry		
Barbara Bedortha		
Deborah Leggott		

If you would like to serve on the Action Planning Committee for this school year, please call Deborah Leggott, Principal at TES (365-7506). This committee meets several times during the school year.
